

National Foreign Intelligence Program (NFIP)

DESCRIPTION

The NFIP is composed of 12 programs and the CIA Retirement and Disability System (CIARDS). These NFIP programs are not organizational but rather financial accounts that provide funding for intelligence operations and activities. The Marine Corps participates directly in 3 component programs of the Director of Central Intelligence sponsored NFIP:

❑ ***Consolidated Cryptologic Program (CCP)*** - The CCP provides for Marine Corps participation in the United States Cryptologic System. The Marine Support Battalion, working in concert with the National Security Agency and the Naval Security Group, supports the worldwide SIGINT and INFOSEC needs of national decision-makers and operational commanders. These Marines routinely augment MAGTFs in direct support of expeditionary forces, such as in Bosnia and Kosovo, and in joint exercises.

❑ ***General Defense Intelligence Program (GDIP)*** - The GDIP funds Service and Defense Intelligence Agency (DIA) distributed production functions of the Marine Corps Intelligence Activity (MCIA). It also provides for Marine Corps participation in the Defense HUMINT Service (DHS), on CINC staffs, and in the Joint Intelligence/Joint Analysis Centers (JIC/JAC) at USPACOM, USACOM, USSOUTHCOM, USCENTCOM, and USEUCOM. GDIP provides augmentation pay for Marine Corps Reserve personnel performing intelligence duties at the national and theater level. FY99 GDIP funds have provided over 5,500 man-days of Reserve intelligence support and are currently slated to receive \$920K during FY00.

❑ ***Foreign Counterintelligence Program (FCIP)*** - The FCIP provides for Marine Corps participation in DoN counterintelligence activities through the Naval Criminal Investigative Service.

The NFIP allocates resources to support reimbursable or direct costs and compensation for over 900 Marines and Marine Corps civilian personnel as well as fund-limited operations and maintenance activities.
